

Product Name	Stainless Steel Air Terminal Rod
Product Code	ATRDSSSTLS
Application	Grounding/Earthing And Lightning Protection
Applicable Standards	IEC 62305

Product Information	
Dimensions	16mm/20mm Diameter x (300mm-1500mm According to order) Length
Chemical Composition:	AISI 304
Coating Thickness	>120 μm
Shape	Single Sharp Rod
Threads	M16 Threads
Coating Material	-
Harsh Environments	Product Designed for Aggressive Environments
Air Terminals are Designed to get stroked by Lightning	

**CAHIZAT SYSTEM ZAMIN CO.**

Tel: +98 21 77940716/77959032

Fax: +98 21 77953528

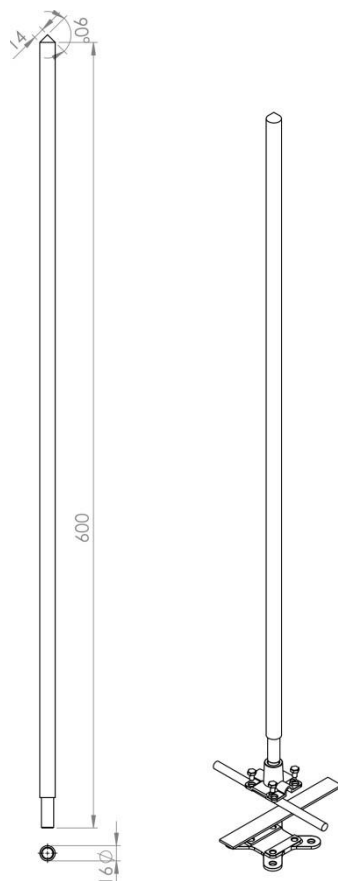

E-Mail: Info@tsamin.com

Product Name	Copper Air Terminal Rod
Product Code	ATRDGPLS
Application	Grounding/Earthing And Lightning Protection
Applicable Standards	IEC 62305

Product Information	
Dimensions	16mm/20mm Diameter x (300mm-1500mm According to order) Length
Chemical Composition:	99/50% Cu
Coating Thickness	>120 μm
Shape	Single Sharp Rod
Threads	M16 Threads
Coating Material	Copper
Harsh Environments	Product Designed for Aggressive Environments
Air Terminals are Designed to get stroked by Lightning	

**CAJIZAT SYSTEM ZAMIN CO.**

Tel: +98 21 77940716/77959032

Fax: +98 21 77953528

Product Name	Copper Air Terminal With Nickle Chrome Coating.
Product Code	ATRDCNCLS
Application	Grounding/Earthing And Lightning Protection
Applicable Standards	IEC 62305

Product Information	
Dimensions	16mm/20mm Diameter x (300mm-1500mm According to order) Length
Chemical Composition:	99.50% Cu
Coating Thickness	>120 μ m
Shape	Single Sharp Rod
Threads	M16 Threads
Coating Material	Ni - Cr
Harsh Environments	Product Designed for Aggressive Environments
Air Terminals are Designed to get stroked by Lightning	

**CAJHIZAT SYSTEM ZAMIN CO.**
